DETAILS DISPLAY

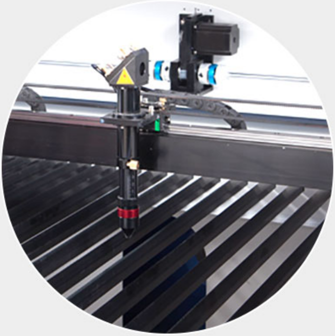
Liaocheng Foster Laser Science & Technology Co., Ltd.

WORK AREA

1300*900MM

ALUMINUM KNIFE

To process hard materials like acrylic, wood and so on.



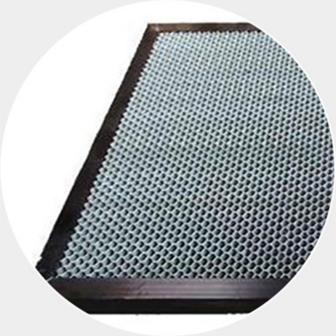
WORK AREA

1300*900MM

HONEYCOMB WORKTABLE

1.Small holes make sure good supporting performance which is suitable for leather. cloth and other thin soft materials.

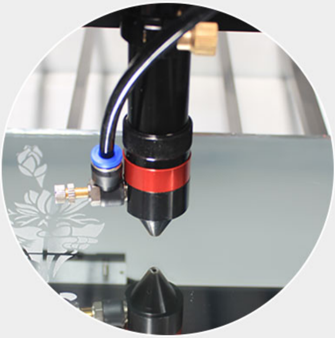
2.The hole of honeycomb worktable is small , so the small workpiece can be placed on the table surface to be processed.



INDUSTRIAL LASER HEAD

High precision retractable laser head, easy to adjust focal length, equipped with red light positioning system, accurate positioning, reduce material loss.

Auto-blowing to protect laser head and prevent the laser burning



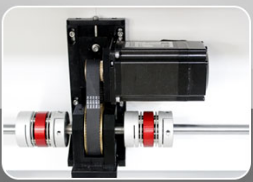
Autofocus (optional)

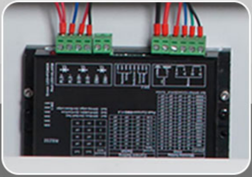
Red light pointer(optional)

Laser is invisible, Red laser beam to determine the cut-off point

LASER TUBE

Closed Co2 laser tube, long life, stable power. Installation of reinforcement settings, the laser tube is not easy to collide and cause damage when moving the machine. (EFR, RECI, CDWJ,YONGLI, JOY. Optional)





II-VI
INFRARED

BRAND STEPPER MOTOR

High operating accuracy,high temperature resistance,
can bear the high temperature generated by high-speed operation,and low noise.

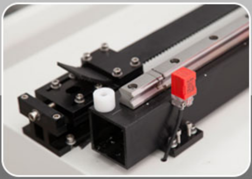
MOTOR-DRIVER

1.self adaptive circuit
2.necessary accessories of offline working

USA II-VI LENS

Imported USA II-VI Lens, suitable for vanous environments, and has high precision and high speed.

ONK
SEVOMaterial
15-HTD3M



FAMOUS BRAND BELT

The ONK brand belt, wear resistance,good stability,
compact structure and low noise.

FAMOUS BRAND SWICH

Engineering design,
easy to operate

LEADING CHAIN

The current lead and breather pipe are included in it.
Thicker,more stable Keep the laser head from shaking

MAIN BOARD

1.Adopt advanced laser engraving and cutting control system: Ruida RDC6442 control system, the control pannal support different language include Chinese, English, French, Pyccko, Portuguese, Turkish, German, Spanish, Vietnamese, Korean, Italian.

2.Standard RDWorksV8 software: It support 15 different languages, include: Chinese, English, Japanese, French, German,Portuguese, Polish,Spanish, Russian, Korean, Vietnamese, Indonesian, Italian, Turkrish,Arabic.
It can compatible with many other software, like Coreldraw, Photoshop, AutoCAD, TAJIMA,etc.
You can use these software to make designs, then import to Rdworks to cut or engrave.

3. RDworks software support files in different format: AI, DXF,PLT,DST,BMP,DSB, EPS, DAT,NC,RDB,GIF, JPG,JPEG,JPE,JFIF,PNG,MNG,ICO,CUR,TIF,TIFF,TGA,PCX, WBMP, WMF,EMF,JBG,J2C,JPC,PGX, RAS,PNM, PGM,PPM,SKA,RAW,

4.Storage: The main board has EMS Memory which enables the user to store more than 100 files.

5. Laser output control: Can regulate the laser power from 1-100% according to different material.

6. Interface: USB2.0 interface support connect to computer by USB cable, it also support offline work.

FREE UPGRADE TO RD-6445

Multi-language in LCD panel.
Ruida. The interface of the control panel is simple,
easy to learn,easy to pperate and the system is stable.

Wifi Control(optional)

Mobile App(optional)

Multi-lanquage

REFLECTOR

45°mirror adjustment set. Easy to adjust laser path.

SWITCH

key switch, emergency stop, LED light

USB INTERFACE

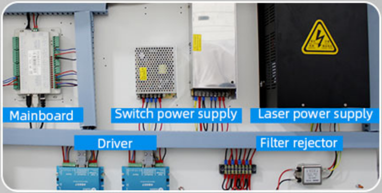
USB interface & USB cable.
Two kinds of transmission fies

IMPORTED LINEAR GUIDE

X Y axis apply imported square rails. Ensures stable operation, high precision and long life.

DISTRIBUTION CABINET

Machine detail. Take every detail seriously to ensure that the machine is stable working during service to every customer.

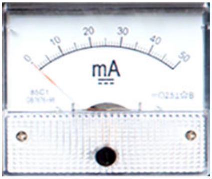


PLATFORM LIFTING

It allows you to process materials of various sizes,can be lifted in Z direction (up-and-down) to get more working space.

Front and back Feeding Doors

Front and back feeding material system,
you can cut and engrave the material at the largest scale



Coreldraw

CAD

Amperemeter

Coreldraw and CAD control directly

Has high accuracy and
can measure weak current changes

Advanced working software which can
be embedded into Coredraw and CAD,
User can operate the machine buy Coredraw
or CAD software directly.

Rotary fixture

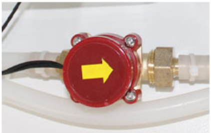
Rotary fixture Can engrave degree , usually applied in advertisement and craft work , for colum or cone work piecsurface (need work together with motorized Up and Down System) .
Rotary fixture is for the circle engravingof cylindrical or column work pieces Need working together with Motorized Up and Down System.

Water chiller

CW-5000
INDUSTRIAL CHILLER
S&A

Best in china, it is for cooling the laser tube after water fill in the pipe when machine is working

Exhaust fan



Water protection

Waste disposal drawer

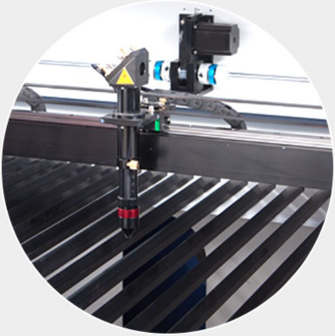
1300*900MM

铝刀平台（可选）

加工硬材料，如丙烯酸，木头等。



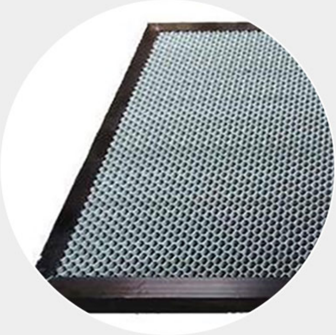
工作平台

1300*900MM

蜂窝平台（可选）

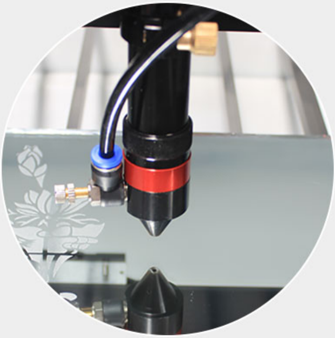
1.小孔保证了良好的支撑性能，适用于皮革布料和其他薄而软的材料。

2.蜂窝工作台的孔很小，小工件可以加工放在待加工的台面上。

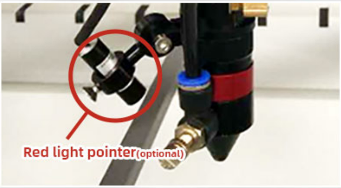


工业激光头

高精度伸缩式激光头，焦距调节方便，
配备采用红灯定位系统，定位准确，
减少物料损耗。自动吹扫，保护激光头
防止激光烧损。



自动对焦（可选）



Red light pointer(optional)

激光是看不见的，用红色激光束来
确定切割点

品牌激光管

封闭式Co2激光管，寿命长，功率稳定。
安装稳定，移动机器时激光管不易碰撞
